QUICK MANUAL FOR N855, N851 and N877  [JCC09]

Your watch is a Bluetooth®-Link Watch that converts the time automatically by receiving time information from a smartphone through the dedicated application.

1. Keep the dedicated application running at all times.

2. Before using the watch with a smartphone for the first time, be sure to register it to Time Connect.

REGISTRATION OF WATCH

Before using the watch with a smartphone for the first time, be sure to register it to Time Connect. Registration procedure is no longer required for those who have previously registered their watches.

Before Registering the Watch

1. Enable the Bluetooth function on the smartphone.

2. The method of enabling the Bluetooth function differs depending on the smartphone or OS version. For details, refer to the instruction manual for your smartphone.

To Start Registration

1. Operate the watch following the procedure below to register the watch to the application.
